Element Lighter TM

- A Luxurious Smart Flameless Lighter -

Thank you for purchasing the Gingko Smart Diffuser Lamp. Please read the instruction manual carefully to achieve the best performance of this product.

If you have any further queries, please feel free to get in touch with us at support@gingkodesign.co.uk

Please Keep this Instruction Manual safe for future reference

How to use this product?

STEP 1. Unscrew the copper lid in anti-clockwise.

STEP 2. Put the lighter close to your mouth (**about 5 - 10 cm distance**) and make a sharp and strong blow on the metal ring to turn on the lighter.

[NOTE]

The metal ring will turn on in orange red for about 6 seconds only and then it will switch itself off.

The lighter can be used for approximately 50 times per each full charge.

STEP 3. Screw the copper lid back after use.

[WARNING]

THE METAL RING IS VERY HOT WHEN IN USE ;
DO NOT TOUCH IT WITH YOUR FINGER AND
KEEP IT OFF FROM CHILDREN !

How to charge this product?

The product is usually arrived with 70% charge: However, before using, please fully charge it first by following the instructions as below:

1. Take the micro USB charging cable out from the box
2. Connect the USB charging cable to any USB plug adapter with a **5V output** i.e. a smartphone charger or a USB port on the computer.
3. Gently connect it to the charging port on the product.

The power indication light will light up red when it is connected to charge; light turns off when power is disconnected

Please make sure the USB charging cable facing the right way when connecting to charging port of the product.

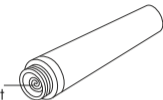

ATTENTION: IMPORTANT

Please make sure the micro USB is facing the right direction before connecting it to the product. Do not force the micro-USB into the charging port if it is in the wrong direction as it may cause damage to the fragile charging port.

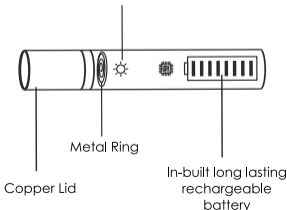

How do I know when it's fully charged?

The charging indication light is right under the metal ring. When charging, the light will light up red; when fully charged, the light will turn off.

The charging indication light
(right under the metal ring)

What is the Element Lighter Made Of?

We care for the environment as much as you and providing something which is sustainably designed and made is also our key product philosophy to our business.

The Element Lighter is made of natural and sustainably sourced wood with copper metal. The wood and copper metal we used can also be from the recycled source.
