2021 Product Catalogue

The year 2020 has been a year of huge changes, uncertainty and worrying times.

We want to express our greatest respect to the frontline workers and key workers and we share our deepest condolences with lives and businesses lost. Meanwhile, we are extremely grateful for the continued support from our customers.

We wish 2021 will be better and brighter; like all our New Products, that we hope they will bring joy and 'light' into people's hearts.

our story

Gingko was founded in Oxford, England by Paul Sun and his wife Natalie Sun in 2011. In the same year, we got married and had the objective of designing and creating high-end, yet stylish and practical products for home and design-led gifts. Today we're a leading UK business in the home and gift industry and we feel proud of our achievements so far. We're also proud parents of two gorgeous children.

We think that sometimes life can be complicated and technology too intrusive. Therefore by keeping our product lines simple, engaging as well as being aesthetically pleasing has kept us driven and inspired to create new products. Bringing a fresh approach to design and incorporating modern technology into everyday objects enforces the foundation of our ethos: escape the boring, design for a smarter life.

Design, Quality & Time is now our design ethos when every Gingko object is born. We give every item an ultimate stylish and elegant look in a minimalist design, sustainably produce it with passion and love in our best standard of quality, and produce it to last.

We're currently based in Kenilworth, Warwickshire, the Shakespeare's county, around 10 minutes away from Warwick and 2 hours drive from London City. We strongly believe that a united growth with our beloved customers is a better growth and we thrive on seeking and creating out of the ordinary for our customers globally.

tech and gadgets collection

There is always a cool gadget that the men would look for but we believe we have something here at Gingko that the men would fall in love with...

We're very pleased to introduce our Flameless Element Lighter as our first product for our Tech and Gadgets product category.

05
Element Lighter

element lighter

2021 NEW

Not only smart in looks but smart in technology, the Element lighter from Gingko Design makes this not your usual average lighter.

Disguised in a cigar-like shaped tube, unscrewing the real copper top with a quick blow, it gently reveals a completely flameless heated metal ring that burns to a high temperature. After a few seconds it automatically turns itself off and you can simply screw the lid back on and enjoy its exceptionable quality and compactness. Encased in a real natural walnut or white ash wood and complemented by it's gold metal top lends to a smooth and luxurious feel.

In a class of it's own, it certainly gives your lighter experience a whole new lease of life.

It could be one of the most luxuriously finished flameless lighter
you have ever seen

element lighter

smart baton light

2021 NEW

The Smart Baton Light is purely a sleek and modern compactly designed object.

It can be positioned absolutely anywhere you desire. The real natural and sustainable adhesive wood base can be fixed to most surfaces, and with a cleverly hidden magnet inside, the light baton can be easily positioned, taken down and even used as a handy portable torch. You can re-charge it as needed and simply place it back onto its magnetised base. Light up a dingy hallway, on a stairwell, a cupboard or even as bedside lights, without the need for complicated wiring.

The Baton light also has an in-built motion sensor to help conserve even more energy. So when it's dark, it automatically lights up the moment it detects any motion. Or if you prefer, you can certainly have it stay lit up.

Without compromising on design, the Smart Baton Light from us has a real wood case set off beautifully by the high quality frosted acrylic glass which keeps it light, pleasant and easy to grip for handy use.

Smart Baton Light is an absolute stunning design that can fit in any space for any lighting purpose.

Simple, compact but elegant ...

smart vase light

2021 NEW

Often the simplest of design creations can make the biggest impact and the brand new Smart Vase Light from Gingko no exception to this role.

The Smart Vase Light is a stunning and beautiful paper oval-shaped table light and will certainly create your perfect centrepiece for your home or office space. Cleverly hidden inside is a heat and water-safe tube for filling with your favourite flowers. Made with special heat-safe and water proof Tyvek paper that emits a warm ambient light from within, the fan-like design can also be folded for easy storage. To open again, simply pull the lamp back around till the magnets touch together.

The Smart Vase Light designed from us is a perfect space-saving home or office accessory whilst adding a big design impact and it also reflects our philosophy of creating a stylish and premium design to our every day life from our every day object.

The Simplest design makes the greatest impact

Living, inspiring and exciting ...

smart diffuser lamp

2021 NEW

The Smart Diffuser Lamp isn't just any other diffuser lamp.

With a copper plate seamlessly integrated on top of the lamp, it gently heats up to silently and slowly diffuse your chosen essential oil, filling your room with your favourite scent whilst adding an ambient warm light to create a cosy and relaxing atmosphere. The handy copper touch sensor built into the wood lets you easily control the light's 3-level brightness and the option to switch on the oil diffuser at the same time.

It's made of 100% natural sustainable wood coupled with a high quality frosted acrylic glass that's comfortable to touch. Also, due to its great portable feature via an in-built rechargeable battery makes it the perfect accessory for any room setting.

The Smart Diffuser Lamp from Gingko Design can certainly help you to relax while it radiates it's beautiful light as well as it's pleasant aroma. It also reflects our design ethos of making every day objects better and smarter.

The Smart Diffuser Lamp helps you to relax while it radiates its beautiful light as well as its pleasant aroma.

Good design makes a better living

octagon one plus

Portable Alarm Clock Desk Light

2021 NEW

The New Octagon One Plus Desk Lamp inherited the same elegant design of our global multi-award winning Octagon One Desk Lamp, but it's now incorporated with our popular Click Clock in the hexagon base and made of 100% sustainable natural wood.

This smart design isn't just simply combining the best of simplicity and natural material to achieve its modern industrial aesthetic, but has also solved our everyday space-saving dilemmas, by creating an alarm clock and light into one sculptural-like unit. Leaving space for the more important things in our lives..

With a digital modern clock face built in the hexagon base, you no longer need a separate alarm clock by your bedside table. The clock display silently "fades away" from the wood surface while it's quiet and only reappears again if you give a gentle touch or a tap of the beside table. Plus, you can choose to either use the light to wake you up, so the light will gradually 'light up' your day or you can use the normal beep alarm if you wish.

The Octagon One Plus is more than a purposeful yet organic design, but also as a warm addition to any desk, room or office space.

It's not just a lamp simply combined with a clock,
It's a sculptural unit created from our product philosophy of elegance, uniqueness and sustainability.

octagon one plus

smart moon lamp

2021 NEW

With this extraordinary levitating Smart Moon Lamp from Gingko, you could light up your whole world.

This gravity-defying moon lamp seems to magically 'float' above a walnut or white ash wood base and slowly rotates just like the real elliptical orbiting moon. Made with safe PLA material, this 3D printed full moon even has a textured surface just like the moon's own craters and glows an ethereal-like light as it emits its cool white light. Suspended by a strong built-in magnet it creates a fascinating and life-like illusion of the real thing.

Plus, the Smart Moon Lamp also has three different light modes for you to choose, so you can switch to your preferred light colour from warm yellow light, cool white light and warm white light by a simple touch on the wood base.

This amazing levitating Smart Moon Lamp from Gingko certainly reflects our design ethos of making every day objects premium and smarter in living.

smart moon Lamp

Technical Features

- Product Material: walnut /white ash wood base with PLA 3D printed moon -
 - wood base size: 120x120x30 mm -

 - Product weight: 800g -
- Power input: 12V- 1A AD adapter (included) -
 - Packed in a premium gift box -

G019AH - White Ash

G019WT - American Walnut

One of Our Top 5 Sellers

smart accordion lamp

Inspired by the shape of an accordion, the brand new Gingko Smart Accordion Lamp is a must have home accessory for any room.

To open it, simply pull it as you would play an accordion, and it will instantly transform into a sculptural light emitting a wonderful ambient warm LED light through the accordion shaped pages. Close it and open it again, it magically changes to cool white LED light instead of warm light as before; when it's fully closed, it masquerades as a laser-cut wooden hexagon display object.

This aesthetically pleasing design has a magnetic cover on both sides, so you can open it to a full 360 degrees. You can also connect it to as many units as you wish to create your own piece of sculptural art.

The smart design reflects our design ethos of creating stylish yet functional, modern but great sustainable design.

With the Smart Accordion Lamp, you can always create your own forms of light art, to be inventive and inspiring.

smart accordion lamp

5 global awards winning design

octagon one

Portable Desk Light

This multi-award winning Octagon One portable desk lamp combines the best of simple and natural effect finish to achieve its modern industrial aesthetic. The focal point of the design is a beautifully shaped Octagon wood/marble finish base with touch control button and in-built rechargeable battery which makes it to be a totally wireless desk lamp and allows it to be positioned at three different angles. Octagon One is a purposeful yet organic design, as well as a warm addition to any desk or office space.

smart book light

a design object with the wow factor

The Gingko Smart Booklight is definitely a great additional piece of art to any home; when closed, this smart Book Light masquerades a laser-cut wooden/leather/linen fabric 'book' (depending on the collection material), but when opened it transforms into a sculptural light emitting a wonderful ambient warm white light through the pages.

The beautiful, exquisite design opens to full 360 degrees with cleverly concealed magnets and the lovely soft touch papers are tear-proof and water-resistance that are lightened up by long-lasting LED lights. Inside the laser-cut wood or leather cover lies an interior lamp body made from durable, water-resistant Tyvek "pages" containing high-performing LEDs.

The Gingko Smart Book Light is certainly a design object with the wow factor

r space lamp

A line appears, it takes shape, which is then filled with life and turns it into an Art. A vision becomes tangible - real, space, lightness, which turns it into a design. Fascination.

The brand Gingko R Space Lamp is a perfection through its most contemporary form. The R-shaped body simply looks like a 3D R when it's closed; But when it opens, it transforms itself into an elegant and stunning lamp emitting a delightful soft warm or cool white LED light (two light colour options) through this water and tear proof 'lantern' made of tyvek papers.

The R Space Lamp is dimmable and can be controlled by the supplied smart remote control, so you can easily dim it, turn it off or on, or change the light colour as you wish. Powered by a in-built 2500 mAh rechargeable battery makes the R Space Lamp fully portable or it can be permanently plugged in with a 5V USB plug charging adapter such as a smart phone USB charger (not included)

The R Space Lamp, an inspiring object.

Brick Click Clock

2021 NEW DESIGN tumbler click clock

The new Tumbler Click Alarm Clock from us is a modern variant of any traditional alarm clock. Made of natural sustainable walnut, bamboo or cherry wood and with its beautifully carved round shape and no-tilt design, the Tumbler Click Clock is decorative, practical, and fun to interact with.

Incorporated with our classical and popular 'click-clock' sound activated LED display, the digital numbers feel like floating on the wood surface. You can set the display stay on permanently or only light up as a response to a gentle touch, tap, click of your fingers or clap of your hands. What's more, when the alarm goes off, you simply just give a gentle push to snooze; and, to turn it off, just turn it upside down.

It is a fabulously decorative object due to its architectural design but it's also extremely useful either on your office desk, next to the bed, or in the kitchen, sitting room or lounge.

The Tumbler Click Clock designed by us reflects our design ethos of applying natural sustainable materials and good craftsmanship whilst embodying beauty and technology, and, most importantly, we want our designs to outlive the fleeting trends.

With the no-tilt design, the Tumbler Click Clock is decorative,
practical, and fun to interact with.

to snooze, simply just give a gentle push ; to turn it off, just turn it
upside down.

tumbler click clock

Flip Click Clock

The UK Gift of the Year Award-winning Flip Click Clock changes your normal way of using an alarm clock. When nicely engraved alarm icon shows on top, it means your alarm is turned on, otherwise, it's turned off.

Made of natural wood material, the Flip Click Clock is super-easy to use. To set the time and alarm, simply touch the fine laser engraved buttons. When the alarm goes off, gently touch any of these engraved buttons on the top to snooze and to turn off the alarm, you can easily flip it over and the numbers will magically correct themselves to a normal display as well, keeping the same time and moving as accurate as before.

Powered by in-built rechargeable battery and activated by any sound or vibration, so the LED display disappear when it's quiet and light up when you give a tap, touch or click your fingers. You can also set it on permanent display if you wish.

Flip Click Clock, a design object tailored to be playful .

EDGE

Light Alarm Clock

Best Selling Alarm Clock at MoMA Design Store

Inspired from the cutting edge of bamboo, the brand new Gingko Edge Light Alarm Clock is very unique and a must-have edgy design.

When used as an alarm clock, the Edge Light Alarm Clock is very easy to use and set up thanks to its great ergonomic design. Powered by in-built rechargeable battery (USB charging adapter lead included), the Edge Light Alarm Clock is featured two alarms with shake snooze and dimmable soft screen light, so you can comfortably see the time at night when needed whilst not disturbing your sleep. To turn off the alarm, just simply flip it over and it will instantly turn itself into a warm soft and cosy dimmable ambient/reading light.

G001GY - smart grey

G001GN - mint green

G001BK - classic black

Time can be smart, clever, ultra-stylish, functional and simple with our cube click alarm clock.

The original Gingko Cube Click Clock can tell you the time, date and temperature alternately in LED numbers on a wood grained or other finished cube block at the click of your fingers and automatically switches off when the room is quiet, lighting up again when the alarms goes off or as a response to clicked fingers or clapped hands. The numbers seem to float on the lovely wooden block, but that's just half the magic of the cuboid with a conscience.

Small, but smart; simple, but clever.

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these lovely bricks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display like the cube. Best of all, due to its portable feature with a integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room any more.
